CHAIRMAN'S STATEMENT

The year 2017-18 showed an economy recover after several years for companies engaged in Iron & Steel manufacturing. The Indian economy came out from bad times. The government is increasing penalties and amending the law at a very fast speed. The results of current year are quite encouraging.

As I said last year, I repeat it as that there is no significant change. A lot of hope was pinned on the new Government at the Centre to bring about much needed policy initiatives and systemic changes which alone would have brought the required equilibrium followed by growth trajectory. Regrettably, these have not so far been eased out with the required speed and the problems continue festering.

One good step the government has taken is the introduction of Goods & Service Tax in place of multiple taxes and the abolition of Vat barriers which will give speed to movement of goods and result in lower transport cost. Our domestic costs are higher as compared to foreign countries like China. One hopes many of the teething problems on implementation of GST will be resolved by the government soon.

During the year under review some of the operational achievements. Sales turnover at Rs. 237.32cr is lower by 7.11% as compared to Rs. 255.51cr in the previous year.

The material cost during the current year is Rs.152.85cr is lower by 5.00% as compared to Rs.160.90cr of previous year.

Manufacturing expenses during the current year is Rs.35.85cr and is higher by 6.76% as compared to Rs.33.58cr of previous year.

Employees Remuneration & benefits during the current year is Rs.3.60cr as compared to Rs.3.37cr of previous year and there is increase of 6.93%.

Administrative & Other Expenses during the current year are at Rs.3.83cr and are higher by 18.95% as compared to Rs.3.23cr in the previous year.

Depreciation during the current year was Rs.5.39cr and is lower by 6.09% as compared to Rs.5.74cr of previous year.

Coming to the profit for the current year, the members will be pleased that the company has earned after tax at Rs.4.50cr as compared to Rs.1.77cr of previous year and is higher at 154.23%, an all time record.

I sincerely place on record my thanks to our strategic employees, bankers and all stakeholders for their support and the faith reposed in us during these tough times and we assure all that we will work towards our goal with renewed and dedicated commitment.

<p><i>Expected High Operating Efficiency</i> The Company's steel plant is fully integrated. The sponge iron manufactured by us is used as raw material to manufacture Mild Steel Billets/Ingots.</p>	<p><i>Business Model</i> ❖ Key Activities: Mild Steel Billets/ Ingots manufacturer</p>				

Thus, the finished product of one unit acts as a raw material for the other unit. The current power capacity is meeting the power requirements and as well as the surplus is being sold to the private power companies as well as State Electricity Board. Due to integration, our company as a whole has been able to reduce its cost of production. Your company can sustain/absorb adverse market situation during cyclical recession. The steel industry is highly power-intensive and captive power generation plant, which has low cost per unit, is leading to significant cost saving and adding to profitability.

Captive Power Plant

Steel industry is power intensive industry. Power plays an important factor. Considering the power requirements of our existing manufacturing facilities, your Company has increased the generation capacity from 7.5 MW to 12 MW from Waste Heat Recovery Boiler to meet the present requirement of power as well as to sell off the surplus through private power companies and State Electricity Board. Captive power plant gives us the stable and uninterrupted power supply which is very crucial in manufacturing of our products. Uninterrupted power supply helps to avoid any delays in manufacturing process thereby ensuring complete utilization of our capacities.

- ❖ Key Resources: Sponge Iron, Captive Power Plant
- ❖ Customers Relationship: Product excellence, on time delivery and customer services

MANAGEMENT DISCUSSION AND ANALYSIS**INDUSTRY STRUCTURE AND DEVELOPMENTS**

There is no change in business sector of the company and Management Discussion and Analysis continues on similar lines from year to year. Consumption of steel is an indicator of economic development of a country. Steel continues to have a stronghold in traditional sectors such as construction, housing and ground transportation, special steels are increasingly used in engineering industries such as power generation, petrochemicals and fertilizers. Your company is engaged in integrated business of manufacture of sponge iron, steel billets & ingots and power generation at Sondra village in Raipur (Chhattisgarh).

OPPORTUNITIES AND THREATS

Over last year, there is no significant change in opportunities & threats.

OPPORTUNITIES

Growth in the steel demand has strong correlation with growth in GDP of nation. The Indian economy was expected to grow at spectacular growth rates of GDP; but unfortunately the same is not happening. The demand for sponge iron in medium term is becoming healthy due to closure of many sponge iron plants for want of iron ore supply to them. Steel through induction furnace route is on the verge of reduction. Consequently merchant sponge iron suppliers will be under pressure on account of market demand. The company, therefore, has vision to shift focus to steel making from its own sponge.

The important policy measures which have been taken over the years for the growth and development of the Indian iron and steel sector are as under:-

- (i) Currently, import duty on steel items from existing 5% to 10%. The import duty on raw materials like melting scrap, coking coal, met coke is NIL and between 2 to 5 percent for other raw materials such as Zinc, Iron Ore and Ferro Alloys. There is no export duty on any steel item. Government has rightly imposed ad-valorem export duty of 30 per cent on iron ore lumps in order to conserve the mineral for long term requirement of the domestic steel industry.
- (ii) GST has brought uniform effect at the National level Excise duty for steel is currently at 12 percent.
- (iii) To ensure sufficient domestic availability and curb the rising price of hot-rolled coils in the domestic market, its imports have been freed by the government.
- (iv) The National Steel Policy 2005 continues to be updated to provide a roadmap for Indian Steel Industry's long term growth prospects in view of fast-changing nature of operations, structure and dynamics.
- (v) For ensuring quality of steel several items have been brought under a quality control order issued by the Government. The matter to bring more steel items under this order is under examination.
- (vi) In order to obtain full picture of the pattern of rural steel consumption in the country, an all India survey was commissioned by the Ministry of Steel. The survey work was coordinated by Joint Plant Committee, Kolkata and the field work was carried out by IMRB International, a leading market research organization. The study report was examined by a high-level Committee appointed by the Ministry of Steel for devising roadmap for implementation of the recommendations of the study, which have submitted its report to Ministry of Steel. Further action as per recommendations of this committee is being taken.

THREATS

Cost of Iron ore and coal i.e. the basic raw material has a direct impact on the profitability. Iron ore prices has increased substantially and availability of the required grade has suffered to a great extent due to various restrictions imposed by the authorities. Coal India's new coal distribution policy and consequent Fuel Supply Agreement has disrupted coal linkages forcing producers to procure more e-auction coal. Coal India has also increased the price of coal substantially.

The cost of iron ore and coal constitute more than 80% of cost of production. Profitability of the company depends on market price of these raw materials vis-à-vis price of sponge iron. The only way to substantially reduce the cost of iron ore and coal is to have captive mines for these raw materials. The coal block which is under development will meet most of the coal requirements. Delay in starting the mining operations is only due to external factors. Further, the coal linkage has been discontinued forcing the company to procure the required coal through e-auctions of coal India and overseas markets at high cost. The company does not have any iron ore mine.

SEGMENT-WISE PERFORMANCE

The company has four segment iron & steel, power, real estate and fabrics. The necessary disclosures have been made as per accounting standard 17 on segment reporting in the notes to accounts.

OUTLOOK

The outlook of the company is broadly described in Vision and Mission statements of the Company. Options of shifting focus to steel making, separate power plant at pit head of coal block etc. remain in focus to optimize the revenue in future.

OVERVIEW OF THE COMPANY AND ITS PROJECT

Vaswani Industries Ltd. was incorporated under the Companies Act, 1956 on July 22, 2003 with the Registrar of Companies, Madhya Pradesh and Chhattisgarh and obtained Certificate of Business Commencement on February 10, 2004. ANNEXURE B TO THE AUDITORS' REPORT

[Referred to in paragraph 2 (F) under "Report on Other Legal and Regulatory Requirements" of our Report of even date to the members.

Report on the Internal Financial Controls under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

We have audited the internal financial controls over financial reporting of VASWANI INDUSTRIES LTD ('the Company') as of 31 March 2018 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as Required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the 'Guidance Note') and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts

and expenditures of the Company are being made only in accordance with authorizations of the Management and directors of the Company; and

- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

SIGNIFICANT ACCOUNTING POLICIES

a. Statement of Compliance

These financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under section 133 of the Companies Act, 2013. The financial statements have also been prepared in accordance with the relevant presentation requirements of the Companies Act, 2013. The Company adopted Ind AS from 1st april 2017.

b. Basis of Accounting

The financial statement has been prepared under the historical cost conventional accrual basis of accounting. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS), the provisions of the Companies Act, 2013 ("The Companies Act"), as applicable and guidelines issued by the Securities and Exchange Board of India ("SEBI"). The Ind AS are prescribed under section 133 of the Act read with rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016. As these are the Company's first financial statements prepared in accordance with Ind AS, Ind AS 101, First time Adoption of Indian Accounting Standards has been applied.

Up to the year ended March, 31 2017, the Company prepared its financial statements in accordance with the requirements of the Indian GAAP ("Previous GAAP"), which included Standards notified under the Companies (Accounting Standards) Rules, 2006. The date of transition to Ind AS is April 2016.

c. Use of Estimates

The presentation of financial statements in conformity with Indian GAAP requires judgments, estimates and assumption to be made that affect the reported amount of assets and liabilities, disclosure of contingent liabilities on the date of the financial statement and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates are recognized in the period in which the results are known / materialized.

d. Property, Plant & Equipment (PPE)

Tangible assets are stated at cost of acquisition (inclusive of freight) or construction net of CENVAT /Tax credit, less accumulated depreciation and impairment loss, if any. All costs, including financial costs till commencement of commercial production and adjustment arising from exchange rate variations attributable to the fixed assets are capitalized.

e. Capital Work- in- progress

Project under commissioning and other capital work-in- progress are carried at cost, comprising direct cost, related incidental expenses and attributable interest

f. Depreciation

- a) Depreciation on fixed assets has been provided on Straight Line Method Depreciation is provided based on useful life of the assets as prescribed in Schedule II to the Companies Act, 2013.
- b) Depreciation on addition to / deduction from fixed assets is being provided on pro-rata basis from/ to the date of acquisition/ disposal.

g. Inventories

Inventories i.e. stores consumables are valued at cost (exclusive of duties & taxes). By Products are valued at estimated realizable value. Raw Materials are valued at cost plus freight using Weighted Average Cost (WAC) method. Finished Goods are valued at cost or net realizable value (NRV) whichever is lower. Finished goods include cost of conversion and other cost for bringing it in the present location and condition including depreciation.

h. Impairment of Assets

(i) Financial assets (other than a fair value)

The Company assesses at each date of balance sheet whether a financial asset or a group of financial assets is impaired. Ind AS 109 requires expected credit losses to be measured through a loss allowance. The company recognizes lifetime expected losses for all contract assets and / or all trade receivables that do not constitute a financing transaction. For all other financial assets, expected credit losses are measured at an amount equal to the 12 month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

(ii) Non-Financial asset:

Property, plant and equipment and intangible assets

Property, plant and equipment and intangible assets with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognized in the statement of profit and loss.

i. Financial Instrument

Financial assets and liabilities are recognized when the Company becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

Cash and cash equivalents

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

Financial assets at amortized cost

Financial assets are subsequently measured at amortized cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through other comprehensive income

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset gives rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through profit or loss

Financial assets are measured at fair value through profit or loss unless it is measured at amortized cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognized in profit or loss.

Financial liabilities at fair value through profit or loss

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held for trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method.

Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

j. Revenue Recognition

Revenue is recognized only when risks and rewards incidental to ownership are transferred to the customer, it can be reliably measured and it is reasonable to expect ultimate collection.

Interest income is recognized on a time proportion basis taking into account the amount outstanding and the interest rate applicable.

However, where the amount is immaterial / negligible and/or establishment of accruals / determination of amount are not possible no entries are made for the accrual.

k. Other income

Interest income is accounted on an accrual basis. Dividend income is accounted for when the right to receive income is established.

l. Borrowing Cost

The Borrowing costs that are attributable to the acquisition or construction or production of the qualifying assets are capitalized as per the cost of such assets up to the date when such assets are ready for its intended use. All other borrowing costs are charged to the Profit & Loss A/c.

m. Accounting for Taxes on Income

(a) Current tax is determined as the tax payable in respect of taxable income for the year and is computed in accordance with relevant tax regulations.

(b) Deferred tax assets and liabilities are recognized for future tax consequences attributable to the timing differences that result between taxable profit and the profit as per the financial statement. Deferred tax assets & liabilities are measured using the tax rates and the tax laws enacted or substantially enacted as on the Balance Sheet date. Deferred tax assets are recognized only to the extent there is reasonable certainty for its realization.

(c) The taxable income of the company being lower than the book profits under the provision of the income tax act 1961. The company is liable to pay Minimum Alternate tax (MAT) on its income.

(d) Considering the future profitability & taxable position in the subsequent years the company has recognized MAT Credit as an assets by crediting the provision for income tax & including the same under Loans & advances in accordance with the Guidance note on "Accounting for Credit available in respect of MAT under Income Tax Act 1961" issued by the Institute of Chartered Accountant of India.

n. Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

o. Foreign Currency Transaction

Transactions in foreign currency are recorded in Rupees by applying the exchange rate prevailing on the date of transaction. Transactions remaining unsettled are translated at the rate of exchange ruling at the end of the year. Exchange differences arising on translation or settlement of monetary items are recognised as income or expenses in the period in which they arise in the Statement of Profit and loss.

p. Provision and Contingencies

Provisions involving substantial degree of estimation in measurement are recognized when there is a present obligation as a result of past events and it is probable that there will be an outflow of resources. Contingent liabilities are not recognized but are disclosed in the notes. Contingent assets are neither recognized nor disclosed in the Financial Statement.

q. Employee Benefits:-

a. Provident Fund is a defined contribution scheme and the contributions are charged to the Profit & Loss A/c of the year when the contributions to the Government Funds is due.

b. Gratuity Liability is defined benefit obligations and is provided for on the basis of Actuary Valuation obtained from Registered Actuary.

- c. Short Term Compensated absences are provided for based on estimates. Long Term compensated absences are provided for based on actuarial valuation.
 - d. Actuarial gains / losses are immediate taken to the profit & loss account and are not deferred.
 - e. Re-measurement of defined benefit plans in respect of post-employment are charged to the Other Comprehensive Income.
- r. Segment Reporting:-**
- a) Business Segment: - The accounting policies adopted for segment reporting are in the line with the accounting policies of the company. Segment Revenue, Segment expenses, segment assets and segment liabilities have been identified to segments on the basis of their relationship to the operating activities of the segment. Revenue, Expenses, Assets, Liabilities which relates to the company as whole and not allocable to segment on reasonable basis have been included under "Unallocated revenue/ expenses/ assets/ liabilities".
 - b) Geographical Segment: - The Company sells its products within India. The condition prevailing in India being uniform. So no separate geographical segment disclosure is considered necessary.
- s. Research & Development Expenditure:-**
- Revenue expenditure pertaining to research is charged to the Profit and Loss Statement. Development costs of products are charged to the Profit and Loss Statement unless a product's technological feasibility has been established, in which case such expenditure is capitalized.
- t. Intangible assets:-**
- Cost incurred on intangible assets, resulting in future economic benefits are capitalized as intangible assets and amortized on equated basis over the estimated useful life of such assets.
- u. Events Occurring After the Balance Sheet Date:**
- Events occurring after the balance sheet date and related to circumstances existing on the Balance Sheet are accounted for. Events not related to circumstances existing on the Balance Sheet date are disclosed by way note to accounts.
- v. Recently notified Indian Accounting Standards (Ind AS), effective on or after April 1, 2018**
- Ministry of Corporate Affairs ("MCA") through Companies (Indian Accounting Standards) Amendment Rules, 2018 has notified the following new amendments to Ind AS which the company has not applied as they are effective for annual periods beginning on or after April 1, 2018:

Ind AS 115 – Revenue from Contracts with Customers

Ind AS 115 establishes a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. Ind AS 115 will supersede the current revenue recognition standard Ind AS 18 Revenue, Ind AS 11 Construction Contracts when it becomes effective. The core principle of Ind AS 115 is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Under Ind AS 115, an entity recognises revenue when (or as) a performance obligation is satisfied, i.e. when 'control' of the goods or services underlying the particular performance obligation is transferred to the customer. The Company has completed its evaluation of the possible impact of Ind AS 115 and will adopt the standard with all related amendments to all contracts with customers retrospectively with the cumulative effect of initially applying the standard recognized at the date of initial application. The Company does not expect the impact of the adoption of the new standard to be material on its retained earnings and to its net income on an ongoing basis.

Ind AS 21 – The effect of changes in Foreign Exchange rates

The amendment clarifies on the accounting of transactions that include the receipt or payment of advance consideration in a foreign currency. The appendix explains that the date of the transaction, for the purpose of determining the exchange rate, is the date of initial recognition of the non-monetary prepayment asset or deferred income liability. If there are multiple payments or receipts in advance, a date of transaction is established for each payment or receipt. The Company is evaluating the impact of this amendment on its financial statements.
